Intro to AI Engineering

Open-source AI Models

Learn Embeddings and
Vector Databases

Learn AI Agents

Learn OpenAI's Assistant
API

Build AI Apps with
LangChain.js

Intro to Dall-E and GPT
Vision

Sep 4, 2024

Adnan Farzand Ali

has successfully completed the online, non-credit Specialization

AI Engineering

This specialization teaches web developers to build next-generation apps with generative AI. It covers topics like the OpenAI suite, open-source models, embeddings, vector databases, how to speed up your AI development with LangChain, and more.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
